2-) When you click it, it will open automatically in your browser. You will then be asked to continue using either the web browser or the app. Also arrow 1 shows download app side.

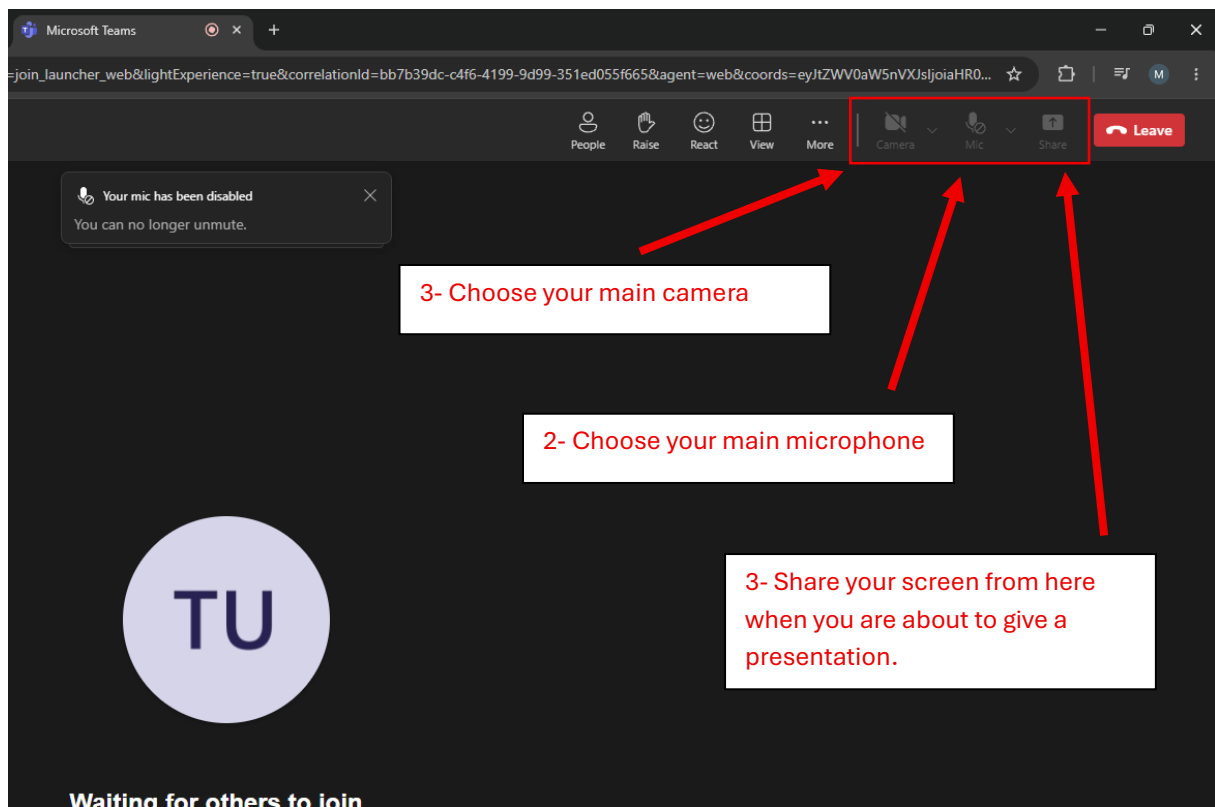

3-) If you proceed using the browser, a new page will open. If you have not signed in to Microsoft Teams before, you can continue without signing in. Don't forget to adjust your microphone and camera settings.

4-) If you have not previously granted microphone and camera permissions, or if you declined them by mistake, you can grant the necessary permissions from the top-right corner of your browser.

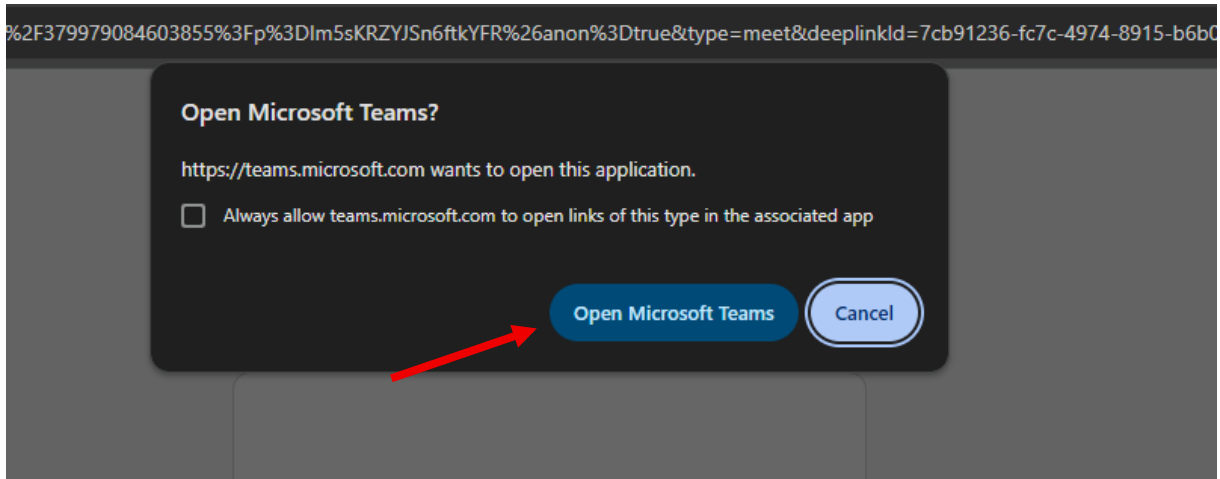

5-) You can make the necessary adjustments from the top-right corner of your browser.

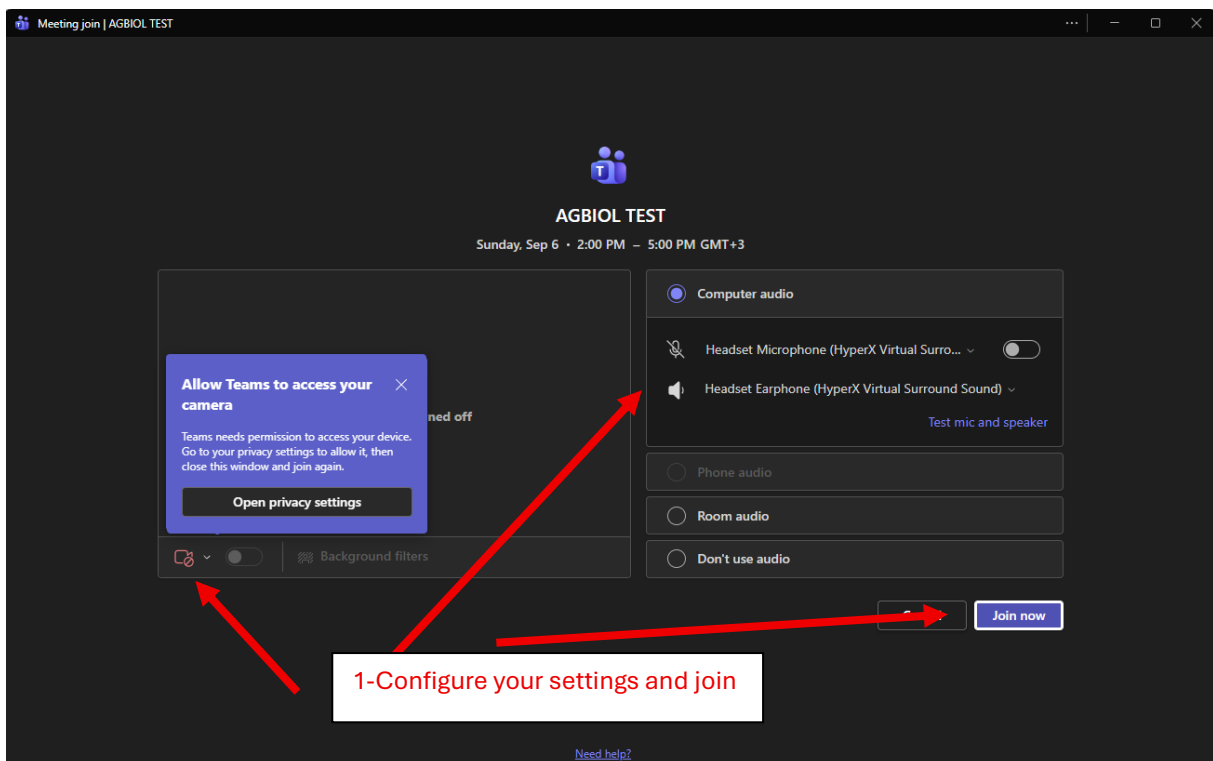

Microsoft Teams App Guide

1-) When you choose the application option, a new tab will show in the upper-middle section of the screen.

2-) Configure the necessary settings in the opened application.

3-) Check your settings.
